# WHO WE ARE

RSH is a hospitality group with global impact. Our disciplined, strategic approach to F&B has built some of the most successful Latin restaurant concepts across the globe.

Founded by Chef/Owner Richard Sandoval, we develop concepts and business strategies that build the reputations, tell the stories, and grow the revenues of restaurant and hospitality brands alike. With over 60 locations across North and Central America, Europe, Asia, and the Middle East, our depth of experience ranges into most corners of the planet.

We believe there is magic to be found at the intersection of creative thinking and value driven strategies.

Many of the world's most recognized brands believe that as well. That's why some of our strongest partners are globally trusted hospitality brands like The Four Seasons Hotels & Resorts, The Ritz Carltons, Intercontinental Hotels and more choose RSH.
